

Take part in international tele/webconferences. Confidently. Spontaneously. Just like in Spanish.

Better results

See better results and feel more prepared for web conferences than by following traditional, weekly face-to-face 'English classes'.

- Teleconference sessions mirror real life. Focus is on you and your day to day issues. **No time wasted.**
- Short sessions. People don't miss sessions and are not 'out' for long periods.
- Work from your desk. **No wasted time.**
- **Improve your meeting skills:** share and work with on-screen information.

Since 2007, people from companies like Accenture, Bacardi, Carburos Metalicos, Codorniu, Mitsubishi Electric, Vueling and more have been improving their **online meeting skills**; people just like you.

How it works

- 10 teleconference sessions of 50 minutes
- Trained moderator
- 4 to 6 participants.
- Two components:
 1. A normal conference call
 2. Online collaboration application:
Adobe Connect Pro. This is similar to NetMeeting, LiveMeeting, Webex, GoToMeeting, SameTime, etc.
- Typical conference call topics
- Short, concise and practical phrases. Language that you need.

Course content:

- Language to communicate with and persuade others
- Language of negotiations
- Preparing and delivering presentations
- Learn and use business specific language through practical case studies. Examples:
 - **Nivea** – The four P's of Marketing
 - **Tesco Supermarkets** – Search and Recruitment
 - **Anglo-American Mining** – Corporate Social Responsibility (CSR)

Investment

This is a 10 session program and represents an investment of €1.250 per group.

Inter-company groups: €250 per person

Results Guaranteed
